

REPURPOSE AND REDESIGN

Career Development Events Information

Repurpose and Redesign, an individual or team event, recognizes participants who apply recycling and redesign skills to create a display using a sample of their skills. Participants select a used fashion, home, or other postconsumer item to repurpose into a new product. Participants will create a brand-new product, not simply embellish an old one. However, participants may use additional materials if needed to redesign and creatively embellish the new product. **Levels 1, 2, 3**

Career Clusters
