

REPURPOSE AND REDESIGN

Career Development Events Information

Repurpose and Redesign, an individual or team event that recognizes participants who apply recycling and redesign skills learned in Family and Consumer Sciences courses and create a display using a sample of their skills. Participants select a used fashion, home, or other postconsumer item to repurpose into a new product. Participants will create a brand-new product, not simply embellish an old one. However, participants may use additional materials if needed to redesign and creatively embellish the new product. At the event site, participants set up their displays and present the results of their projects to evaluators. **Levels 1, 2, 3**
