Using the information from the previous chart, explain your leadership qualities & experiences & tell how they would help you be an effective Ohio FCCLA Executive Council member.

Through FCCLA, my school and my community, I have participated in many activities that have helped me stay involved and develop my leadership skills. Through my clubs at school, I have constantly sought out leadership positions that allowed me to take initiative and take charge. Through FCCLA, I have used my leadership position to help new members navigate this amazing organization and I have led meeting that provide them with information that will ensure their success. As Vice President of Competitive Events, I have also helped new members with their projects and I have helped them with public speaking and practicing before competitions. This experience has allowed me to help others, and it has also helped me gain a better understanding for this incredible organization. Through Student Council, I have used my leadership position to plan events that would benefit my fellow members and recognize their efforts. These leadership roles, along with various others, have taught me how delegate tasks, lead meetings, communicate information effectively and ensure that everyone's voice is heard. As a member of both FCCLA and DECA, I have experienced CTSOs from a member's perspective twice and I feel confident that I know how to improve this already amazing organization to benefit everyone involved. As a community volunteer, I am passionate about making a positive difference and I have learned the value of relying on other to accomplish a goal. I believe that all these skills and experiences have prepared me to be the perfect candidate for Executive Council position.
