WORK EXPERIENCE

Chores

2024 - PRESENT

Around the house

- I was given x amount of chores to complete. I always completed them on time and they would be done before I asked to go anywhere.
- My chores consisted of things like picking up branches in the yard, cleaning the bathroom & polishing furniture.
- These experiences showed me how to keep things clean and looking nice. It also taught me how to get things done before a deadline.

School projects

2023- 2027

Within my high school

- During my time in high school, we did many projects that helped me develop my communication, teamwork & time management skills.
- I was tasked to work with others over a topic and we had to communicate, work together & make sure our project was due on time. Occasionally, we'd have to present these projects which helped develop my public speaking skills.

FCCLA

2025 - PRESENT

My junior year

- I started as a volunteer that would help pack our dare to share bags every Friday because I loved the idea of getting to help my community through school.
 - I eventually became a part of FCCLA, which has greatly helped me with leadership, public speaking, and just being more confident in who I am
 - From starting as a volunteer, to becoming apart of FCCLA, it is now a place I am proud to call my home.
